

Natural Kitchen

The Natural Kitchen combines the best available filtration technologies to give you pure, naturally filtered water straight from the tap for pennies per gallon. Proven nano fiber technology virtually eliminates Bacteria and Viruses. Filtered water retains the healthy, naturally occurring minerals that stabilize water and provide its unique flavor.

- ◆ Tested to NSF Standards 42 and 53 for chemical reduction
- ◆ Reduces Bacteria by 99.9999% and Virus by 99.99%
- ◆ Filters three times faster than most systems (up to 1.5 GPM)
- ◆ Single cartridge filters up to 1200 gallons for one year
- ◆ Made in the USA from high grade stainless steel
- ◆ Streamlined design reduces potential for leaks and failures
- ◆ Lifetime Warranty on all stainless steel components

Filtration Performance

Utilizes a carbon block that has been independently tested to NSF Standards for reduction of chlorine, chloramines, VOCs, PCBs, MTBE, pesticides, THMs, lead, mercury, asbestos, cysts and other contaminants.

The carbon block is wrapped with multiple layers of nano fiber membranes, a cutting edge technology tested to reduce bacteria by 99.9999% and viruses by 99.99% while retaining all natural minerals.

Filters up to 1.5 gallons of water each minute, three times faster than a standard carbon filter and over 60 times faster than a reverse osmosis system without the waste.

The Natural Kitchen has a single multi-layered cartridge that lasts up to 1200 gallons or up to one year. No tools are required for a cartridge change, and it takes just a few minutes. Other systems have multiple cartridges that have to be changed as often as every three months and require specialty tools.

Product Quality

The filter housing is constructed from high quality 304 stainless steel and all fittings are made with lead-free brass in compliance with the strictest safety standards. Manufactured and assembled in the USA.

The Natural Kitchen minimizes potential leaks and failures by using only reliable brass compression fittings for the inlet and outlet and a solid stainless steel band clamp to seal the filter housing. In comparison, it has become common in the industry to use plastic housings with numerous plastic fittings that have a substantially higher potential to leak or fail, which could cause catastrophic damage to your home.

In addition to our 90 Day Money Back Guarantee we provide a **Lifetime Warranty** on all stainless steel components and a 1 Year Warranty on other components. Try it for yourself and find out why the Natural Kitchen provides healthier water for you, naturally.

Natural Kitchen Technical Specifications	
Filtration Media	0.5 Micron Carbon Block / 0.02 Micron Nano Fiber Wrap
Maximum Flow Rate	1.5 gpm (5.68 lpm)
Pressure Range	20 - 100 psi (1.38 - 6.89 bar)
Rated Cartridge Life	1,200 gallons (4,542 liters) or 1 year
Operating Temperatures	40° - 100° Fahrenheit (5° C - 38° C)
System Dimensions	8.25" H x 6.5" W (21 x 16.5 cm)
Cartridge Dimensions	7.25" H x 4.5" W (18.4 x 11.4 cm)
Product Warranty	Lifetime Stainless / 1 Year Other Components
